Sophia University Research Branding Project Special Workshop

The Idea of Identity and Multiculturalism—trends and challenges

Monday, October 23, 2017 17:00~18:30 (Open16:30)

Room L-821, 8th Floor, Central Library, Sophia University Yotsuya Campus

Global attempts to stop identity based violence, whether it is passport-based or ethnicity-based, are handicapped by the conceptual disarray generated by the presumption of singular and choiceless identity. In the context of globalization and protective political policies, we try to understand some of the trends and challenges of identity and Multiculturalism.

Sali Augustine

Vice President for Student & General Affairs
